Objective

To obtain a position that aligns with my BCA degree and allows me to apply my problem-solving skills, analytical thinking, and technical expertise to drive business solutions.

Education

- Rabindranath Tagore University** 2025
Bachelor Of Computer Applications
6.94

Skills

- JAVA
- C
- C++
- HTML
- CSS
- JavaScript
- Python
- Git
- Github
- MySQL
- Figma
- UI/UX

Projects

- **Weather Web Application**
With the help of HTML, CSS And JavaScript I created an online web application which uses API to fetch real-time data to show current weather conditions of all around the globe.
- **Music Player**
Sculptured a Music Player which can play through a few uploaded songs with the help of HTML, CSS and JavaScript.
- **Portfolio website**
Created my own digital presence with the help of HTML, CSS and a little bit of JavaScript to make a website which describes me. This was also my first project which I worked on.
- **PG Booking Website**
Created a booking page for a PG/ Hostel booking website. I designed this page with the help of figma and then later used HTML, CSS and JavaScript for coding.

Achievements & Awards
